Capitol Hill in Flux: A Legislative Analysis of 2020 Election Outcomes

The results of last Tuesday's election are slowly coming into focus, along with the ways in which those results may impact the legislative agenda in the remaining weeks of the 116th Congress and looking ahead to the 117th Congress. Learn more about early observations and some predictions [here](#).

IRS Releases Guidance on W2 Reporting for Employee Social Security Deferrals

On August 8, 2020, a Presidential Memorandum was issued, directing the Secretary of the Treasury to defer the withholding, deposit, and payment of certain payroll tax obligations. The Notice allowed employers the option to defer the employee portion of Social Security tax from September 1, 2020 through December 31, 2020. The IRS has released guidance on issuing the W2's for employees that took advantage of this deferral. Read it [here](#).

Work from Home Resources

When Consumer PCs Start Compromising Your Business

One of the great myths about PCs that you hear people repeat time and time again is that there's no real difference between their home laptop and the one they use at work. They may be from different manufacturers and may be different colors, but they do the same job. You hear them say things like: "if it walks like a duck and quacks like a duck, it's a duck!"

They're implying that a PC is a PC – and they can't differentiate between a consumer computer in their home and a business computer that they use for work. Let me say clearly now: this just isn't true. Consumer PCs and Business PCs are not interchangeable.

Tackling Common Data Hygiene Challenges

In Tackling Common Data Hygiene Challenges, the AT Bumblebee team explores some practical skills, methods, and insights around doing the actual work of member data clean-up.

Find out how you can take practical approaches to address three specific data hygiene challenges—duplication, standardization, and key

considerations/special cases.

This is intended to be used as a resource for experienced data managers, newcomers looking to gain some practical skills, and for strategic stakeholders seeking to better understand what goes into a data clean-up effort.

Top 5 Tips For Preparing For A Data Clean-Up Project

For associations, data clean-up has the dubious honor of being both a vital strategic initiative and the project most likely to be postponed, reprioritized, or tabled. We get it; associations are often overburdened and understaffed for the challenge of data hygiene. When faced with the decision between working on a new non-dues revenue initiative and spending hours on seemingly endless data clean-up, it's no

wonder that dirty data is such a pervasive issue in the association community.

Association TRENDS brings you the second resource in this three-part data series presented by Bumblebee, "Top 5 Tips For Preparing For A Data Clean-Up Project".

Are you ready to take the next step when it comes to cleaning up your dirty data?

Leading Your Remote Team:
Strategies for Success | Virtual
Seminar | SkillPath

- Understand how leading from a distance differs from a normal manager's

cycle will bring changes, regardless of outcome. The Presidential election will determine fundamental policy positions across a range of issues. Congressional elections will adjust the makeup of Capitol Hill. And state and local elections have the potential to affect businesses in a variety of different ways.

To help you get a jump on all these potential changes, Paychex is hosting a special post-election event, The Business Impacts of the 2020 Elections: First Impressions.

Onboarding Virtual Employees | Virtual Seminar | SkillPath

Effective onboarding programs help new hires feel welcome and excited to start working, even before their first day on the job. But as more people transition to work-from-home positions, managers and human resource departments must creatively approach how they will onboard these new, virtual employees and still make a positive, engaging first impression.
