QUOTE FOR THE MONTH

"A life is not important except in the impact it has on other lives."
-Jackie Robinson

This quote states that the one thing that actually matters is the impact we

have on the lives of others. That is the closest thing to immortality we as humans can achieve. To help others live better, to improve their condition, to help them believe in themselves, to help them achieve more than they thought they could. That is what is truly important.

Shelter Suites Offer Safe & Comfortable Space for Homeless Residents

UCAP has created a safe and comfortable space for homeless individuals and families residing in Shepherd's Cove shelter. Their renovations have provided additional suites to manage the increased need for those seeking shelter. They especially want to thank their many donors that adopted shelter suites and provided resources to help purchase needed items for the dorms/suites. Thanks to all of the donors that provided \$500-\$5,000 to help purchase comforters, sheets, pillows and cases, rugs, and window blinds. Many also purchased and donated comforters and sheets for the new suites. They have some additional suites available for adoption.

TIPS & TOOLS

Racial Equity Toolkit Updated to Evaluate Vaccinations

Black and Brown communities have been disproportionately impacted by the pandemic - especially those experiencing homelessness. As vaccine distribution rolls out, it is important for homeless service systems to not exacerbate the health disparities already in existence.

The Alliance's Racial Equity Network (REN) has updated its Racial Equity Data Tool to include racial demographics and data points to consider for the vaccination process.
